FINANCIAL COMMENTS REPORT AS OF JULY 31, 2023

Owners, we forecast, after 9 months of operation, a loss of \$12,413.00 and we are working to make sure that we minimize that forecast without negatively impacting the maintenance of our site and its reputation.

Sorry, more bad news on the insurance front, one more insurance company went bankrupt, and the State approved a rate increase for Citizens for early December 2023. The commercial, our side, will face a minimum increase of 9.2% and you, the owners, on personal insurance coverage will have to accept a minimum rate increase of 12%. On top Citizens may not agree to cover us and our owners unless the private sector is over 20% of the base price of Citizens. This means that the commercial sector can increase by 9.2% plus 20%, before being accepted by Citizens, this is the worst-case scenario. The re-insurance companies also announced rate increases of between 30 to 40% and the situation created by fire damage like in California and Hawaii and the hurricane damage on the west coast, Greece and others in Europe will not help either, we all pay our share for these events.

Unless there is substantial modification to existing laws in Florida, insurance costs will simply continue to go up. For our owners that are on fixed retirement income or close to it, it will be a financial nightmare to manage.

Since November 1^{st,} 2022, we have had 40 units sold or transferred within the family. Last year's total was 37 and the previous record of 39 was established in 1996/1997. This made 105 units sold in 33 months. There is demand for Waterside, the name has been respected since 1988. It is a lot of new owners. We need to make sure they feel welcome at Waterside. You should read the positive notes we get from new owners or long-standing owners; these comments are greatly appreciated by our staff and by your Board of Directors members.

So far no impact for Waterside from the hurricane season, a lot of activities in the Atlantic and in the Pacific, you can check the evolution of each Tropical storm on <u>www.unkebe.com</u>, on <u>www.nhoa.com</u> and on the APP Max Tracker that does provide a lot of details.

On the <u>REVENUE</u> side, compared to a previous forecast, we have an increase in revenue of \$2,125.00 due to the increase in account 104 "Transfer Fee", related to the number of units sold and account 107 "Screening Fee", related to the increase in number of guest/leases. We are considering a revision to our documents to make sure they match the Florida Statutes on this aspect, a separate memo will be issued on this subject shortly.

We are left with 14 owners who have not paid the special assessment of \$450.00 and 3 more have made partial payments. This does delay the reimbursement of the loan payable and the Association investment in short-term deposits from the reimbursement of the Working Capital Reserve used to pay the insurance premium. The current interest rate, for a 3-year term is just below 5% fully FDIC insured, we did one \$100,000.00 by getting back the maximum we were able to get out of existing CD and Annuity that were at a lower rate and investing over \$30,800

from our reserve bank account to reach \$100,000.00. We should be able to do one more \$100,000.00 during the first week of September. The next one will be in November and one more in December. It does require a lot of time to manage and review the marketplace. Many banks are under scrutiny from the authorities, currently there is over 20 of them, we have no risk as we are all covered by FDIC. Next year we have \$800,000.00 that will come to maturity, plus new investments provided by our contribution to fund our reserve. We hope to invest all of them at a higher interest rate than the current rate.

In the <u>Utility section</u>, the total increase over the previous forecast is \$5,800.00, mainly due to an increase in electricity (#200) by \$3,000.00 and in water and sewage (#201) by \$4,000.00. To our residents, please remember that water consumption and the resulting sewage of the water is costly in the City of Boynton Beach and in all of Palm Beach County. The number of residents present at Waterside during the summer months was greater than previous years' experience, this is also a contributing factor.

Following the insurance situation, the website design, lately the ACH fee debate, the special assessment receivable and now the insurance claim for the water damage sustained on December 24, 2022, all of these required a high level of attention and time, only now can we devote time to the INTERNET project. Director Michael Shane joined President Andre Mongrain and Stacey for a series of presentations from 3 different suppliers. Michael visited different sites that use their service, at least one of their customers. Michael and Stacey conducted a site visit from each of the possible interested providers to Waterside and President Andre Mongrain joined them via Facetime. The objective is to obtain explanations on how they intend to run their fiber to each building and to each unit. We are expecting a preliminary design from each one.

The <u>ADMINISTRATIVE</u> section now records as forecasted an insurance cost of \$787,879.00. A budget overrun of \$170,579.00. The actual cost at the end of July is \$758,062.00. In July, after 7 months, the Association did receive an offer for its claim:

Joe Taylor Inc. Mitigation: \$ 6,773.71

| Damages: | \$17,871.86 |
|--------------------|----------------------|
| Contents: | \$ 4,855.19 |
| Gross Claim: | \$29 <i>,</i> 500.76 |
| Less Deductible: | \$(5,000.00) |
| Less Depreciation: | \$(2,378.16) |
| Net Claim: | \$22,122.60 |

One check for \$15,348.89 was cashed in July and one more for \$6,779.71 that we managed to cash just in August as it required 2 endorsements. We got a total amount of \$22,122.60 net of a deductible of \$5,000.00 and a depreciation deduction of \$2,378.16.

We do expect an overrun of about \$5,000.00 as indicated under office flood account #561, equivalent to the deductible. Now the insurer is asking for a copy of the invoices supporting our claim, we delayed the work to be done until reception of the funds from the insurance company and the final drive on our new insurance policies. We will now commit to ordering replacements for damaged furniture and execute the office wall and ceiling repairs, one more priority.

In the <u>MAINTENANCE</u> section we increased the forecast by \$19,640.00. Please review each of the following accounts: account #401 sprinkler, account #402 pest control, account #403.2 hedge trimming, account #407 security gate expense, account #411 pool supplies and account #412 street maintenance, all those forecasts went up. A full review of all accounts was done to come up with these new forecasts. On the building painting, the current year program is close to an end, Stacey will do the last inspection on building 8 and 9 before releasing the last payment.

In the RESERVE section we reviewed the Annuity and CD where we did not receive the interest due. New support documents were forwarded to the provider. We remain conservative with account #2544 INTEREST REVENUE RESERVE at \$32,500.00, this has no impact on the profit and loss statement. We cannot project at this stage the reserve requirement for the coming year, we know that due to inflation at least the roof contribution will need to go up.
